

Minchinhampton Surgery fees for non-NHS services

2023

Access to own patient record	
Under GDPR, patients have the right to access their patient records free of charge. However, we encourage patients to request online access if they wish to take up this option	No charge

Certificates, forms, letters	
<i>Please note: practices are not obliged, either by statute or contract, to complete reports requested by organisations assisting people with their claims for benefit. Practices may choose to do so and may charge a fee. Welfare Rights and CAB usually say that they are not in a position to pay a fee. If a claimant is turned down for a benefit after making an application without a report from the GP, they can appeal the decision. If the appeal comes before a tribunal and the tribunal feels that it would be helped in its decision-making by a report from the GP, the tribunal is entitled to request such a report from the GP and will pay a fee</i>
